

SRRV / SIRV Medical Partnering Model

**For Global Retirees | Department of Health (DOH) Philippines |
Facilitated by Global Care Corporation – Philippines as the
Operational Company (OpCo) and Real Estate Development
International (RED Int'l) as the Property Company (PropCo)**

Objective

To develop a healthcare-based entry and residency model for international retirees and investors entering the Philippines under the **Special Resident Retiree's Visa (SRRV)** or the **Special Investor's Resident Visa (SIRV)** by connecting them with Department of Health (DOH)-compliant healthcare providers, senior living communities, home healthcare services, and integrated healthcare infrastructure.

The program is intended to position the Philippines as a premier destination for retirement, healthcare, wellness, and long-term senior living while supporting foreign direct investment and sustainable healthcare development.

Target Audiences

Visa Program	Target Profile
Special Resident Retiree's Visa (SRRV)	International retirees, pensioners, expatriates, and individuals seeking healthcare, wellness, and senior living services in the Philippines
Special Investor's Resident Visa (SIRV)	Foreign investors investing in qualified healthcare, real estate, hospitality, wellness, or senior living development projects

Medical Partnering Opportunities

Service Model	Description
Integrated Luxury Senior Living Communities	Long-term residency with independent living, assisted living, memory care, wellness, rehabilitation, and hospitality services under Global Care and RED International developments

Service Model	Description
Home Health Agency Enrollment	Skilled Nursing, Physical Therapist, Occupational Therapist, Private Duty Nursing, Certified Nursing Assistant (CNA) Services, and Home Healthcare coordination through Global Care Corporation
Hospital & Wellness Network Affiliation	Priority access to affiliated hospitals, specialty physicians, wellness centers, diagnostics, preventive medicine, and concierge healthcare
Medical Tourism Programs	Coordinated pre-arrival medical assessments, diagnostics, elective procedures, rehabilitation, recovery accommodations, and wellness packages
Retiree Healthcare Membership Plans	Comprehensive healthcare memberships incorporating preventive care, annual wellness examinations, transportation assistance, laboratory services, pharmacy coordination, and emergency response services

Program Design

Step 1 — Investor or Retiree Application

Applicants initiate their residency process through the appropriate Philippine government agencies, including:

- Philippine Retirement Authority (PRA) for Special Resident Retiree's Visa (SRRV)
- Board of Investments (BOI) and other authorized agencies for Special Investor's Resident Visa (SIRV)

Global Care Corporation and RED International provide advisory support throughout the application process.

Step 2 — Healthcare Partnership Matching

Global Care Corporation and RED International coordinate placement with qualified healthcare providers based on each applicant's healthcare needs.

Potential healthcare partners include:

- Department of Health (DOH)-licensed hospitals
- Skilled Nursing Facilities
- Home Health Agencies
- Hospice Agencies
- Home Care Agencies
- Integrated Luxury Senior Living Resorts
- Rehabilitation Centers

- Wellness Centers
 - Specialty Clinics
 - Primary Care Physician Networks
 - Private Nursing and Care Coordination Services
-

Step 3 — Healthcare Assessment & Care Planning

Healthcare providers conduct individualized assessments that may include:

- Medical history review
 - Functional assessment
 - Medication review
 - Care coordination plan
 - Long-term wellness planning
 - Recommended healthcare services
 - Healthcare partnership agreements where appropriate
-

Step 4 — Residency & Healthcare Integration

Following visa approval, retirees or investors receive coordinated access to:

- Assigned healthcare providers
 - Primary care physicians
 - Nursing services
 - Rehabilitation programs
 - Wellness programs
 - Emergency healthcare networks
 - Concierge healthcare coordination
 - Long-term care planning
-

Step 5 — Ongoing Healthcare Coordination

Global Care Corporation provides continuing coordination through:

- Annual healthcare reviews
- Preventive wellness monitoring
- Home visits (where applicable)
- Telehealth consultations
- Digital health record management
- Care coordination among providers
- Emergency response coordination
- Family communication support

Healthcare Provider Requirements

Requirement	Minimum Standards
Department of Health (DOH) Licensing	Active license and regulatory compliance
Healthcare Workforce	Qualified physicians, nurses, therapists, and allied health professionals
Insurance & Financial Coordination	Acceptance of applicable insurance plans or private-pay options
Multilingual Services	English-language capability and multilingual patient support where available
Digital Health Capability	Electronic medical records, telehealth services, secure patient communication, and digital care coordination
Emergency Preparedness	Hospital affiliations, emergency transportation, disaster preparedness, and continuity of care planning

Value Proposition for Retirees & Investors

Participants benefit from:

- Healthcare services coordinated with residency requirements
 - Priority placement within Department of Health (DOH)-licensed healthcare providers
 - Integrated senior living and healthcare services
 - Personalized care management
 - Preventive healthcare programs
 - Concierge medical coordination
 - Rehabilitation and wellness services
 - Durable Medical Equipment (DME) coordination
 - Transportation assistance
 - Emergency healthcare access
 - Reduced administrative complexity through centralized care coordination
-

Benefits for Healthcare Providers

Participating healthcare organizations may benefit through:

- Access to qualified long-term international clients

- Increased occupancy and healthcare utilization
- Diversified international revenue opportunities
- Strategic partnerships with Global Care Corporation and RED International
- Participation in integrated healthcare and senior living developments
- Increased visibility within international retirement and investment markets
- Enhanced collaboration with healthcare, hospitality, and real estate sectors

Optional System Integration

The SRRV and SIRV Medical Partnering Model may be integrated with:

- Department of Health (DOH) Digital Licensing Platform
- Philippine Retirement Authority (PRA) information systems (subject to applicable agreements)
- Board of Investments (BOI) investment facilitation processes
- Digital Medical Wallet platforms
- Electronic Health Record (EHR) systems
- Healthcare Investment Portals
- Integrated Luxury Senior Living Resort Management Systems
- Global Care Expat international referral network
- International Healthcare Concierge Platform

Expected Outcomes

Implementation of the SRRV and SIRV Medical Partnering Model is intended to:

- Position the Philippines as a preferred global retirement and healthcare destination
- Increase international healthcare investment
- Strengthen Department of Health (DOH)-licensed healthcare networks
- Expand integrated senior living and healthcare infrastructure
- Improve continuity of care for international retirees
- Support medical tourism and wellness initiatives
- Encourage collaboration among healthcare providers, developers, investors, and government agencies
- Contribute to long-term healthcare modernization and sustainable economic development in the Philippines
